Product

Characteristics

Due to its high alcohol content, this powerful cleaner is ideal for cleaning contact surfaces where hygiene requirements are high and regular treatment is required. Efficient and effective removal of skin fats. Reduces unpleasant odors of organic origin.

Applications

- Hygienic cleaning according to ECDC guidelines.*
- Removal of fingerprints and other contact stains from glass, mirrors, screens.
- Thorough cleaning of contact surfaces: shop counter, worktops, seating surfaces, railings,...
- Hygienic treatment of handles, control buttons, PC & laptop, smartphone, tools.
- Deodorizing of air conditioning channels and filters.

(*) ECDC=European Centre for Disease prevention and Control.

Use

- Turn off power to appliances.
 - Shake aerosol well.
 - Treat the entire surface.
 - Wipe with a Novawipe microfibre.
- 1 aerosol = +/-7 m².

For hygienic surface cleaning according to WHO / ECDC guidelines see downloads.
