Product

Characteristics

A high-tech sprayable grease for mounting and dismounting of tyres. Packed in a practical spray can which excludes product pollution and formation of bacteria. The practical aerosol ensures that you do not need a brush anymore to apply the grease and it also prevents hardened grease pots. Can be used safely on steel, aluminium, rims and does not affect rubber. Simplifies the dismounting of refractory tyres. Dries quickly and prevents slippage of the tyre in the rim.

Use

- Shake before use.
- Treat the heel of the tire.
- Act immediately.
