Product

Characteristics

Fast-acting disinfectant hand gel for deep hygiene. Suitable for sensitive skin. No rinsing required. Destroys more than 99.99% of viruses, bacteria and other germs. Contains Panthenol (provitamin B5). This ensures soft hands, a quick healing of wounds and the disappearance of tingling by regular disinfection.

Applications

- Hand disinfection under COVID-19.
- General hand hygiene.

Use

- Apply a drop of gel on the hands and rub in.
 - Allow to dry, effect after 30 seconds.
- Wait a few minutes between two applications.
