Product

Characteristics

- Easily removes non hardened PU-foam from all surfaces thanks to the added spray nozzle.
- The easy way to clean a PU-Foam gun, screwing the spray can directly on the gun.

Applications

- for cleaning PU guns.
- for removing uncured PU foam.

Use

Removing uncured PU foam

- Install the supplied red nozzle.
- Apply to a cloth and clean the surface.
- Repeat if necessary.

Cleaning the Foam Gun

- Fully close the Foam gun control knob and mount the PU Skumrens on the gun. Screw the spray can onto the gun until it blocks.
- Fully open the gun adjustment screw and press the gun handle to remove any foam residue.
- If pure cleaner comes out of the gun, release the lever and allow to act for a few minutes.
- Press the lever until pure cleaner comes out.
- Turn the knob fully closed and remove the cleaner.

- Remove any remaining foam that is still around the ring by using the red spray head. Test the resistance of plastics and delicate surfaces on a non visible location.
