Product

Characteristics

Universal, effective foam spray for safe removal of natural contamination from all water-resistant surfaces, also vertically.

Easy, safe and fast to use. contains no abrasives and has a pleasant odour.

Leaves no traces, smears or coloured marks on surfaces.

Applications

- Industry
ideal for cleaning and degreasing of office, kitchen and bathroom furniture, tiles, washbowls in stainless steel and aluminium, bath tubs, lighting, lacquered and enamelled surfaces, leather and imitation leather seats, computer material from screen to keyboard, porcelain, mirrors, carpets,...

- Automotive
cleans all polished, chromium plated, lacquered and plasticized surfaces, such as rims, seat and door upholstery. Removes nicotine, stripes of shoe polish, even insect excrements and dead insects on windscreens, headlights.

- Motorbikes
removes grease, dirt and light resins on rims, fairing, windscreen, clothing,...

Use

- Shake the aerosol before use.

- Spray the application and let interact for a moment.
- Dry the surface by rubbing with a clean, non-fluffy cloth.
- Afterwards rub the surface again with a dry cloth.
