

# TT-1008 Citrusrens

POWERFUL SOLVENT BASED DEGREASING AGENT

- ✓ Fast and efficient.
- ✓ Removes glue and petroleum derivatives.
- ✓ Safe on most surfaces.

## Technical Info

- Composition: aliphatic hydrocarbon solvent and citrus extracts.
- Appearance at 20°C: liquid.
- Colour: transparent.
- Odour: characteristic.
- Relative density at 20°C: 0,7640 kg/l.
- Boiling point/boiling range: 130 °C - 199 °C.
- Vapour pressure at 20°C: 460 Pa.
- Flashpoint: +31°C.
- Auto-ignition: +200°C.
- Upper flammability or explosion limit (Vol%): 7,000 %.
- Lower flammability or explosion limit (Vol %): 0,600 %.
- Water-solubility: not soluble.
- Dynamic viscosity at 20°C: 1 mPa.s.
- Kinematic viscosity at 40°C: 1 mm<sup>2</sup>/s.
- Evaporation rate (n-BuAc = 1): 0.350.
- VOS content: 99,60 %.
- VOS content: 667,846 g/l
- Shelf life: 36 months, keep dry, cool and frost free.
- Safety measures: consult the Safety Data Sheet.

## Packing

TT-1008 Citrusrens - 500ml

683030118

## Product

### Characteristics

This powerful degreasing agent on solvent base for demanding tasks can be used on all metal substrates to remove grease, oil, bituminous and tear residues, wax, ... . TT-1008 is also suitable for use on glass and on most types of plastic and painted surfaces. The citrus extracts not only provide a fresh scent, but actively contribute to the breakdown of pollution.

### Applications

- Removes old adhesive and stubborn grime.
- Removes glue and double-sided adhesive tape.
- Removes stickers, glue residue, decor and labels.
- Removes tar, petrol, diesel and greasy stains.
- Excellent results on stainless steel to bring back the shine and remove marker pen and finger marks.

## Use

---

- Apply and allow to work depending on the degree of soiling.
- Rub off the loosened dirt.
- Repeat if necessary.
- Wipe the surface with a clean cloth to remove residues.

When in doubt about compatibility for an application, test first.

Clean
